The University of Virginia (the “University”) seeks a qualified firm to provide dormitory furniture for select areas in four phases.

For ease of reference, each firm or individual receiving this RFP is referred to as a “firm” and the firm or individual selected to provide services for the University is referred to as the “Selected Firm.” This RFP states the instructions for submitting proposals, the procedure and criteria by which a firm may be selected, and the contractual terms by which the University proposes to govern the relationship between it and the Selected Firm.

I. Background Information

When Thomas Jefferson founded the University in 1819, he intended it to be nothing less than a world-class institution of higher learning. Jefferson’s spirit lives on – not only in the Rotunda and Academical Village he designed, and which remain treasures of American architecture, but in the University’s standing as a leader in education, research, and community service.

The over 19,850 students attending the University work within a true meritocracy and live by an Honor Code unique among American universities. Each student is exposed to the widest spectrum of disciplines – from arts and athletics to humanities and technology. Our students also enjoy a unique connection to the world beyond college through the University’s outstanding professional training, exemplified by its nationally ranked schools of Law, Business, and Medicine. The University as a whole has had a consistently high ranking not only among public schools, where it often heads the list, but among all American universities, public and private.

Over 11,600 permanent University faculty and staff are committed to serving both the local and national community. The University makes a real difference in the world, through its invaluable research, a hospital ranked among the nation’s finest, and graduates who have consistently been among the forefront of our
nation’s shapers. At the University, our bright future is the direct result of our great history.

In support of the broad goals of the University, the University’s Housing Division (“University Housing”) has established the following mission statement: The purpose of University Housing is to support and complement the broad missions of the University. University Housing promotes the University’s academic, cultural and social goals by providing a stable and well maintained living environment wherein students may freely associate as they pursue academic goals, share cultural perspectives, and participate in a community characterized by academic inquiry, healthy social activity, and friendship. University Housing also:

A. Provides clean, comfortable and well-maintained living quarters at a moderate price;
B. Promotes a learning environment within the residences;
C. Recognizes student’s needs to develop as competent, independent, purposeful and socially adept citizens;
D. Fosters resident’s exposure to differing academic interests and values as part of a broad learning experience; and
E. Provides an array of services and accommodations supportive of an extensive and multi-faceted summer conference operation.

In support of these objectives, the University seeks an experienced firm to furnish all labor, materials, tools, and resources necessary to provide and install dormitory furniture for select areas in four phases as outlined in this RFP.

Greetings:

The quality of service the University of Virginia is able to deliver to its customers is directly related to the excellent support we receive from you and many other outstanding suppliers of goods and services. Without you, we would not be able to fulfill our educational, health care and research missions. An important part of our procurement program involves our commitment to doing business with small, women- and minority-owned (SWAM) businesses. As one of our most important vendors, we look to you to help us achieve this objective.

We conduct substantial business with small firms. We have been less effective in securing long-term business relationships with minority- and women-owned businesses. We are determined to improve our record.

I seek your assistance in two areas. First, to the extent practical, I ask that you involve small, women- and minority-owned businesses in the delivery of services you provide to UVa. Second, I seek your help in reporting your results through our quarterly subcontracting reports. The terms and conditions previously provided to your organization outlined this process.

This effort is important to us. We depend on you in so many ways – this is another way that we can partner with your company to make things better.

Sincerely,

Leonard W. Sandridge Executive Vice President and Chief Operating Officer
